- Entering design phase of new maintenance facility
- Master plan developed for golf course and facilities under guidance of Architect David Esler

We are offering the opportunity to gain experience in all facets of golf course maintenance and management at an exclusive private club along the south shore of Lake Geneva. The club was founded in 1895 and hired Robert Foulis to design the 18 hole layout. Robert Foulis spent many years as an apprentice of Old Tom Morris at Royal Saint Andrews before coming to the U.S. in 1896. Robert Foulis went on to design many more courses throughout the Midwest before settling as Pro/Supt at Bellerive CC in St. Louis.

Lake Geneva is centrally located between Chicago, Milwaukee, and Madison.
