

BEAN IMPROVEMENT COOPERATIVE

BIC AWARDS

The Bean Improvement Cooperative has proudly acknowledged outstanding contributions made by many of its members to bean research and education. **The Meritorious Service Award** has been presented to over 50 of our colleagues during the 50-year history of the BIC. These recipients have devoted many years of their illustrious careers to bean research and education, and have consistently provided outstanding service to our organization.

The BIC Coordinating Committee and Awards Committee offers a special award for BIC members who have devoted less time to their "bean careers" than our Meritorious Service Award recipients. **The BIC Achievement Award** acknowledges a scientist with fewer than 15 years of post-graduate service who has demonstrated outstanding contributions to bean research and/or education.

The BIC Coordinating Committee and Awards Committee proudly announce the establishment of the **Frazier-Zaumeyer Distinguished Lectureship**. The purpose of the Lectureship is to honor a distinguished colleague by inviting the award recipient to deliver the keynote opening address at the biennial BIC meeting. The selected individual should have contributed significantly to bean research over the previous 5-10 year (or longer) period. In addition the recipient would provide a short review (maximum 6 pages) for publication in the BIC report and be featured on the BIC web site. The Lectureship would be distinct from the other BIC Achievement and Meritorious Service Awards and holders of these awards are not excluded from being awarded the Frazier-Zaumeyer Distinguished Lectureship. The Lectureship recognizes the original BIC founder members, Dr. 'Tex' Frazier, distinguished bean breeder and Dr. Bill Zaumeyer an equally distinguished bean pathologist. The Awards Committee in agreement with the BIC President and the Local Meeting Committee Chair will choose the successful recipient of the Lectureship. The Lectureship will be awarded every two years in conjunction with the BIC meeting. The first Lectureship was awarded at the meeting in Fargo and nominations are requested from the membership. Nomination for this award should be sent to the Awards Committee.

These awards will be presented at the next BIC Biennial Meeting to deserving candidates nominated by their peers and selected by the BIC Awards Committee. Award recipients will be acknowledged at the twenty-sixth Anniversary of BIC Biennial Meeting in San Juan, Puerto Rico from October 30 to November, 4, 2011. Please help us select worthy recipients. Complete details are posted elsewhere on this web site.

The Frazier-Zaumeyer Distinguished Lectureship

The **Frazier - Zaumeyer Distinguished Lectureship** was established in 2001 to recognize and honor a distinguished colleague who will present the keynote opening address at the biennial BIC meeting. The individual selected will have made outstanding and pioneering contributions to science that led to the advance of bean research. The Lecture will focus on current topics relevant to the BIC membership. The Lectureship is distinct from the other BIC career Awards such as the Distinguished Achievement and Meritorious Service Awards. Holders of these awards are not excluded from being awarded the Frazier-Zaumeyer Distinguished Lectureship. The name for the Lectureship honors the original BIC founder members, the late William A. 'Tex' Frazier, distinguished bean breeder and the late William 'Bill' Zaumeyer an equally distinguished bean pathologist. Dr. Tex Frazier working at Oregon State University is recognized for his pioneering work in developing the famous Bush Blue Lake snap bean and related germplasm. Dr. Bill Zaumeyer, USDA-ARS is recognized for his outstanding efforts in bean pathology. He is also known for being a co-author with H. Rex Thomas of the famous 'Monographic Study of Bean Diseases and Methods of Control' published in 1957. The BIC Awards Committee, the BIC President and the Local Meeting Committee Chair jointly choose the successful awardee. BIC members are asked to nominate potential recipients of the award. The Lectureship has been awarded every two years in conjunction with the BIC meeting.
