Summer Internship 2014
Westchester Country Club
99 Biltmore Ave
Rye, NY 10580

Education: All applicants must be enrolled in either a two or four year turf related field.

Experience: Prior golf course experience is preferred but not required.

Special Requirements: Applicants must possess a positive attitude as well as a relentless work ethic. Willingness to work in a team based environment with a diverse staff. All employees must have the dedication and ability to work the necessary hours.

Daily Work Requirements: Student interns will have the opportunity to be involved in every aspect of turf and property management. Interns have an opportunity to; hand water and syringe greens, spray turf related pesticides, work on irrigation and drainage projects, sod projects, bunker restoration, tournament preparation both professional and member events, operating all turf related machinery and equipment, and scouting for turf related problems and diseases.

Salary Range: $10/hr+ DOE. Time and a half for overtime. Double time on 7th consecutive day.

Benefits: On property housing, meals, golf privileges, work uniform, overtime

Details of the Club: Westchester Country Club is a 45 hole private country club located in the heart of Westchester County approximately 20 miles north of New York City. Westchester opened in 1922 and has two 18 hole championship golf courses designed by Walter Travis. Westchester also features an 8 story hotel and grounds, driving range, par three executive course, both grass and har-tru tennis courts, outdoor paddle tennis courts, and a 67 acre Beach Club on the Long Island Sound. In the fall of 2010, the West Course greens and approaches were re-grassed from our 80 year old poa annua to A1-A4 bentgrass. The South Course still features poa annua greens which will give student Interns a great opportunity to compare and contrast the differences between bentgrass and poa annua greens during summer stress. Westchester has also hosted 45 PGA tour events in its long history and has the opportunity to continue working with the PGA in the coming years. Westchester has recently begun working on a new Master Plan with the Fazio Design Group. The first leg of work has begun this fall rebuilding all the tee complexes on the West Course. Student interns will have the opportunity to be involved with the Master Plan and construction work.
